

# Missing You

## Imajin

Ohh

I had to put the photographs of you away  
It hurts so much to see you smile at me  
Since youve been away, I feel an empty space  
That will never be replaced with memoriesOhh  
I cant believe that its over  
But this sure is a shame  
But love was not enough to make you stay  
So I had to say goodbye to yesterday  
You went awayI tell myself that Im not missing you  
(Im not missing you)  
But my heart it just won't listen  
(Just won't listen)  
Even though I tell it to  
I think about it all the timeCant seem to get you off my mind  
And it just won't seem to matter what I do  
Cant stop missing you  
(Missing you)  
Im missing youNever thought each breath was gonna hurt so much  
The heavy on my heart just wont subside  
The time we spent together was just not enough  
So I guess, thats why I just cant say goodbye, noOhh  
I cant believe that its over  
That the ties have all been freed  
Still Id give the world just to have one more day  
(One more day)  
Just a chance for me top hold you close and say  
Please dont go awayI tell myself that Im not missing you  
(Im not missing you)  
But my heart it just won't listen  
(Won't listen)  
Even though I tell it toI think about it all the time  
('Bout it all the time)  
Cant seem to get you off my mind  
And it just won't seem to matter what I do  
Cant stop missing youTime will heel my wings and let me fly  
(Far away)  
Far above the rive that I cry, ohh  
High above the borrow that has kept me from the truth

Somewhere out there youve been missing me  
Like Ive seen missing youI tell myself that Im not missing you  
(Im not missing you)  
But my heart it just won't listen  
(Won't listen)  
Even though I tell it toI think about it all the time  
('Bout it all the time)  
Cant seem to get you off my mind  
And it just won't seem to matter what I do  
Cant stop missing you
