# Storm & Grace

## Lisa Marie Presley

You are the most beautiful man
That I've ever known
Too much to offer
And too much held close to the bone
Just step on the breaks there
You got what it takes
You blow me away
Your storm and your grace
My heart can't seem to take it
Your storm and your grace
You have the most beautiful heart

That I've ever known
It kills me you can't ever show it
And a shell has been grown
But stop moving so fast there
Take your foot off the gas
You blow me away
Your storm and your grace
My heart can't seem to take it
Your storm and your grace
You blow me away
Your storm and your grace
