

# Bound to Keep Movin'

[Josh Kelley](#)

Today I'm wrapped up in your arms  
Right where I wanna be  
The sky is bright, this love is wider than the open sea 'Cause I'm bound to go  
And I can't stop this train from moving on ya know  
With a love like this I'll steer it back to you  
With a love like this I'll steer it back to you I know you've got your problems  
Hey, now baby I've got mine  
We fuss and fight 'bout who is right  
And who is out of line But keep on falling in right next to me  
Baby, keep on falling in right next to me 'Cause we're bound to grow  
And I can't stop my roots from grabbing hold ya know  
For a love like this it's few and far between  
For a love like this it's few and far between If the tide ceases to provide a current to pull us through  
I'll crank up the engine and get my motor spinning back to you  
I'm gonna get my motor spinning back to you Ya know I'm bound to go  
And I can't stop this train from moving on you know With a love like this I'll steer it back to you  
With a love like this I'll steer it back to you  
With a love like this I'll steer it back to you  
With a love like this I'll steer it back to you
