A Night To Remember

Shonlock

Shaking hands tremble
Heart beats fast surrender
One last chance to let go forever
Make my move to show you
I want to get to know you
With every step
Towards you forever

Cuz im to close to just give up
I got to know to know your love
Im way to close to just give up
Ive got to know to know your love

Chorus
And well remember tonight
When our two worlds collide
And we'll remember tonight
As we lay it all out on the line
You're taking me higher
Feel like its only us
You got me on fire
There aint no better love
Ohh higher
It feels like its only us
likest only us

And we'll remember tonight
ohhh
for the rest of our life
ohhh

Never felt so anxious
Here with you weightless
Here I am closer then ever
Wake me up in the moon light
I wanna see through your eyes
Take me in stronger then ever

Cuz im to close to just give up
I got to know to know your love

Im way to close to just give up
Ive got to know to know your love

And we'll remember tonight
ohhh
for the rest of our life
ohhh
