

# Maker

## Third Day

We built our idols just to see them fall  
And our false gods brought us nothing at all  
How foolish we have been  
Forgive us for our sins

Maker, there is none like You  
Savior, no one else will do  
Lord, there is no other God  
Lord, there is no other God  
Maker, there is none like You

And on our own, we have nothing but shame  
But by Your grace, we all can stand again, yeah  
How foolish we have been  
Forgive us for our sins

Gather together  
All around the world  
Join with the angels  
Lift up your voice  
He is our Maker  
He is our God and our Lord

Our Maker, there is none like You
