

# Here and Now

## (Hed) P.E.

Here and now (fear me) Here and now  
We are face to phase  
Caught in this time and place  
We are not afraid Hear me now  
These are the days of daze  
In the right time - the right place  
Were not afraid So fear me Can anybody hear this?  
No more lies  
I'm done with the secrets  
Wake (the fuck) up  
We wont stop  
Stand up  
Let every body drop No! were not goin away  
Now we got the power  
We got somethin to say What? Too little, too late  
This is our time  
This is our day Here and now Hear me now Were not afraid So fear me Welcome to the family  
One heart  
One world  
One mind Get your soul  
Get in line Stand up  
Let every body drop No! were not goin away  
We run this (shit)  
We got somethin to say Were all connected  
This is our time  
You must respect it Here and now Hear me now  
These are the dayz of daze  
In the right time  
The right place I'm not afraid, so fear me No! im not goin away I got somethin to say  
I'll never, ever be the same Can you feel me?  
Were gonna make history I'm not afraid You scared?  
Say your prayers One time  
One chance  
To get it (fucking) right.
