[VERSE 2]
you on the run, gotta federal case?
i know a place you can bury your face
yum yum, gone get ya a taste
gotta shake, let it go like mase
but ya tongue gotta know how to act
from the front all the way to the back
its therapeutic and it helps me relax
i got them goodies, boy get you a snack
i dare a nigga try to act like he dont want to
hate when a nigga say what he won't do
you talkin to a girl standin on her own two
if i wanna, i can do it with my own two
so you gotta work it, do some tongue tricks
it takes dedication, i dont cum quick
so put ya shoulders in it, catch a neck cramp
cause i gotta have that tongue like a wet wamp
CHORUS]
wassup with it? you scared?
put my hands on the back of your head
and keep it there, dont stop
lick it up til the very last drop
and go down, (downnnnn)
dont you wanna taste of this georgia peach?
go down, (downnn)
dont you wanna taste of this georgia peach?
[BRIDGE]
where he at, there he go
real girls make them boys get low, ok
where he at, there he go
real girls make them boys get low, ok
where he at, there he go
real girls make them boys get low, get low
where he at, there he go
real girls make them boys get low, get low
CHORUS]
wassup with it ? you scared?
put my hands on the back of your head

and keep it there, dont stop
lick it up til the very last drop
and go down, (downnnnn)
dont you wanna taste of this georgia peach?
go down, (downnn)
dont you wanna taste of this georgia peach?
