## Childhood

Feeling loved, dream,

I look in my bed

A place you've never been, It's fading away.

There's a full ...

Looking for days, I was

It's not a waste, you say

Give us some time to pretend it's there! Stuck in a place where only I feel time

Dreaming of you, I mumble in my mind

I didn't wanted, but all these hours are faded. Feeling that dread,

No I'm not looking ahead

Place you were

It's fading away, yeah!

Stuck in a place where only I feel time

Dreaming of you, I mumble in my mind

I didn't wanted, but all these hours are faded.

Stuck inside a role that I can't rewind,

I can't see you, but I don't mind

I didn't want to change in this day.
