

# #1

## Two Bicycles

I turn away and shove my hands deep in my pockets  
I see her face my body aches and I start rotting  
I watch as he stares into eyes that gazed upon me  
Time ticks by I feel like dying and then she calls me  
[ Chorus ] I think its great that we're so such good friends  
I'm so glad that we're such good friends  
Do you think of me when your being abused  
Thank God I wasn't used.  
Wait by the phone because she said that she would call me  
I know she won't but I still hope it will start ringing

I'll try to find something to do to pass the time  
I lock my door, pace back and forth my teeth are grinding  
[ Repeat Chorus ] When he makes you cry do you consider your best interests,  
When he gets high you know your pain is self inflicted  
I watch as he stares into eyes that gazed upon me  
Time ticks my I feel like dying and then she calls me
