

# Your Little Secret

[Melissa Etheridge](#)

I know what you're thinkin' baby  
I used to be just like you  
You move when she's not lookin' baby  
One sugar ain't enough for you But you, you're takin' out your loans  
You're buryin' your bones  
Before your cover's blown  
You better take it home I like the way you look, I know you like me  
But one and one and one baby makes three  
Stop playin' those eyes if you want me to keep  
Your little secret, little secret, little secret Tell it softly to me, baby  
That you never meant no one no harm  
Your wonderland's a mirror, baby  
It's swiftly fading like your charm But you, you're stepping out of line  
You're spilling all the wine  
Leave it on the vine  
'Cause I can't give you mine I like the way you look, I know you like me  
But one and one and one baby makes three  
Stop playin' those eyes if you want me to keep  
Your little secret, little secret, little secret, little secret, little secret I could, I won't, I can't, I don't  
You make it hard, talk down my guard  
My senses soaked, my ego's choked  
I will not lie, I will not lie I like the way you look, I know you like me  
But one and one and one baby makes three  
Stop playin' those eyes if you want me to keep  
Your little secret, little secret, little secret Little secret little secret, little secret little secret  
Little secret little secret, little secret little secret  
Little secret little secret, no, no, no, no, no  
Stop playin' those eyes
