

For Someone

Union 13

For someone we've pushed and gambled
Lost in every way and angle
For someone we've had to struggle
We couldn't get ourselves untangled I never know where to begin with you
Communicate the way we should
Do angels have to depend on luck?
Your indulgence is not understood Sacrificing as we progress
Wasting away
With no idea how we've done this
What have you to say? I never know where to begin with you
Communicate the way we should
Do angels have to depend on luck?
Your indulgence is not understood For someone we've pushed and gambled
Lost in every way and angle
For someone we've had to struggle
We couldn't get ourselves untangled I never know where to begin with you
Communicate the way we should
Do angels have to depend on luck?
Your indulgence is not understood I never know where to begin with you
Communicate the way we should
Do angels have to depend on luck?
Your indulgence is not understood
