

Nobody Else

Los Lonely Boys

I can't stand to be alone
Cause I go crazy when you're gone
You're the one that makes me whole
I pray you've known this all along
Everything is gonna be alright
I want to be with you all of my life
I can't wait to be alone
With you baby in my arms
Girl I need you here to hold
You know your love it shines like gold
Baby, every minute of the night
That I'm not with you I don't feel right
Cause I only want to be with you
Baby and nobody else
Yes the only girl I see is you
Baby and nobody else
Solo yo no quiero estar
Sin tu carino why tu amor
No quiero vivir sin ti
En mis brazos te quiero asi
Tu eres la unica mujer
Te quiero en mi vida por tu querer
Yes I only want to be with you
Baby and nobody else
Yes the only girl I see is you
Baby and nobody else
