What's a Matter Baby

Small Faces

When people ask me what love's all about
There's one thing I can say
Some people believe just what I'm puttin' down
Understand your troubles awayYou got to do this thing we're feeling
You got to know just what I'm meaning
You gotta believe just what I'm handing
Understanding, understandingYou got to do this thing we're feeling
You got to know just what I'm meaning
You gotta believe just what I'm handing
Understanding, yes, understanding, alrightYou see I love this life I live
And I wanna love it with you
But people if you don't understand
Just what I'm, what I'm puttin' down
There's no more I can do
