

While You're Young

Johnny Mathis

In my heart and my soul I can feel this is right
And I know my bones will grow old and my body get lost in the night 'Cause money can't buy back the youth of
your life
when you're older, you're older, you're old So let's dance in style
let's go dance for a while
While we're young, young, young Something in my heart tonight
Feel it in my soul
I'll let you see my wilder side
If I can see your bones In this moment of mine I can feel this is right
Four in the morning, just searching
Now you must know what that's like
'Cause money can't buy back the love of your life
When you're older, you're older, you're old So carry the weight of our biggest mistakes
On our shoulders, our shoulders, our shoulders Something in my heart tonight
Feel it in my soul
I'll let you see my wilder side
If I can see your bones Something in my heart tonight
Feel it in my soul
I'll let you see my wilder side
If I can see your bones We're getting older
But you're still in my soul, soul We're getting older
But you're still in my soul, soul
Something in my heart
Feel it in my, my, my soul Something in my heart tonight
Feel it in my soul
I'll let you see my wilder side
If I can see your bones Something in my heart tonight
Feel it in my soul
'Cause money can't bring back the stuff in your life
When you're young, young, young
