

The Sheep Song

The Dresden Dolls

[Incomprehensible]
Look I made America
Hush, hush, dont, dont rush
Time for crying, time to crashBrown wine, turpentine
Everything will be just fine
Sleep now, never fear
All your animals are hereCounting sheep I lay me down to sleep
But I see a sheep who will not leave
From the back they catch him in a trap
Hit his head and send him off to bedCutting by numbers is kinder
Invest in one with a silencer
All of the studies say if theyre
Calm when they die they taste betterCutting by numbers is kinder
Invest in the one with the silencer
All of the studies say if theyre
Calm when they die then they taste betterGoodbye, olive sky
I am crying all the time
There, there, dont despair
We will find your sheep somewhere
