

Wicked Man

Jamie McDell

Young girl
Will you every disdain your mother told you to?
Young girl
You're not worried but we all know that he's using you
As we watched him take you down, down, down And now you've got your wicked man
Don't come running when he don't love you no more
Cause we try to make you understand
But honey, know you're just a game
and nothing more I know you try to understand the cards he doubt to you
I'm not angry can't you see, the shores drop drown for you
And we watched him cut you down, down, down
And now you've got your wicked man
Don't come running when he don't love you no more
Cause we try to make you understand
But honey, know you're just a game
and nothing more The party is over
I know you, you trusted him
But darling listen to me
I know these wicked men
they always win And now you've got your wicked man
Don't come running when he don't love you no more
Cause we try to make you understand
But honey, know you're just a game
and nothing more
And now you've got your wicked man
Don't come running when he don't love you no more
Cause we try to make you understand
But honey, know you're just a game
and nothing more
