

I Hear the Sound (Of Victory) [Radio Version]

[Maurette Brown Clark](#)

I hear the sound of victory
I know that things are gonna change for me
I make the sound everywhere I go
And I share the sound with everyone I know
And because of his blood, I've overcome
I don't have to fight, I've already won
And with every step I take it's getting closer, closer
And the louder it gets, the louder I praise
The more intense, the more I praise
And the harder it gets, the harder I praise
I know my victory is on the way and it's in my (praise)
I hear the sound of victory
Come on, let Him hear
I know that things are gonna change
Gotta change, gotta change for me, yes
I make the sound everywhere I go
You all know you hear me make the sound..
I share the sound with everyone I know
With everyone that I know yeah
And because of his blood I overcome
I don't have to fight, I've already won
And with every step I take it's getting closer, closer And the louder it gets, the louder I praise
The more it tips, the more I praise
And the harder it gets, the harder I praise
I know my victory is on the way and it's a guarantee (And it's in my praise)
When I praise, (when I praise) with hands up raised (when I praise)
Things start changing, (when I praise) rearranging (when I praise)
When I'm up a mountain, (I just praise) or even in my valley (I just praise)
Whatever come my way, (I just praise) I lift my hands and praise (I just praise!)
And because of His blood I've overcome
I know I don't have to fight, I've already won
And with every step I take it's getting closer, closer And the louder it gets, the louder I pray
The more it tips, the more I praise
And the harder it gets, the harder I praise
I know my victory is on the way and it's in my (praise!)
I hear the sound of victory
And with every step I take it's getting closer, closer
And the louder it gets, the louder I praise
The more it tips, the more I praise

And the harder it gets, the harder I praise
I know my victory is on the way and it's in my (praise!)
I hear the sound of victory
Hallelujah, hallelujah, hallelujah
And the harder it gets, the harder I praise
Hallelujah, hallelujah, hallelujah
Hallelujah, hallelujah, hallelujah
And the harder it gets, the harder I praise
I know my victory is on the way and it's in my (praise!)
I love you, I really love you
You're more than my problems And the harder it gets, the harder I praise
Hallelujah, hallelujah, hallelujah
Hallelujah, hallelujah, hallelujah
And the harder it gets, the harder I praise
I'm not giving up now
I not turning it down
And the harder it gets, the harder I praise
I know my victory is on the way and it's in my praise!
