To Live On Love

Tammy Wynette

Don't the sun feel warm today don't our lives feel warm today
We have true love to be proud of
And we both understand it all and neither one demands it all
Cause we know how it feels to live on love
Don't the birds sing a lovely song don't our hearts sing a lovely song
There's only the good things to be thinking of
There's no trouble to be found strong enough to turn our world around
Cause we know how it feels to live on love
Yes we know how it feels just to wake up in the morning and be together every day
And to know we've been as close as two hearts could ever be
And there's more love on its way till it come to stay
Don't the wind feel good today and don't our smile look good on our face
Cause we know how it feels to live on love
Yes we know how it feels to live on love
