## **Drug Boy**

## **Filter**

Come along sally let's have a break down
Come along sally let's hit down town
Come along sally let's have a drug run
Come along sally let's go get a gunDrug boy loves the night

Drug boy loves the night

Drug boy loves the night

Drug boy loves the nightYou're trying to help me and all I'm thinking, It's just the biggest waste of timeCome along sally 12 hours of acid Come along sally lets dig up a casketDrug boy loves the night

Drug boy loves the night

Drug boy loves the night

Drug boy loves the nightYou're trying to help me and all I'm thinking, It's just the biggest waste of time
You are trying to help me and all I'm thinking, It's just biggest waste of timeTonight these chemicals are god
Tonight these chemicals are sunlight

Golden sunlightDrug boy loves the night

Drug boy loves the night

Drug boy loves the night

Drug boy loves the nightYou're trying to help me and all I'm thinking,

It's just the biggest waste of time

You are trying to help me and all I'm thinking, It's just biggest waste of time Yeah
