

I Have You to Thank

Gavin DeGraw

Whenever I see you I need more
And I want you to stay til the end
One look at that smile and Im all yours
Will you just smile at me again? I have you to thank for making me so
So hard to please because you treated me so
Good that no one else could hold your make-up
Because of you girl I never wanna break up The difference Im feeling in my heart
Is the difference of loving or not
And under the stars and moon and sun
Is the perfect becoming of one I have you to thank for making me so
So hard to please because you treated me so
Good that no one else could hold your make-up
Because of you girl I never wanna break up If I told you that I loved like an ace
Then Id be lying cause Ive made some mistakes
But Im trying with perfect faith When I let you in I began to win and now Im just all gold
After all Ive done and the road Ive run
I wanna thank you, I wanna thank you I have you to thank for making me so
So hard to please because you treated me so
Good that no one else could hold your make-up
Because of you girl I never wanna break up I have you to thank for making me so
So hard to please because you treated me so
Good that no one else could hold your make-up
Because of you girl, 'cause of you girl
'Cause of you girl I never wanna break up All I can do when I think about you
Is thank you baby, thank you baby
All I do when I think about it
Is thank you baby, I just wanna to thank you baby
I just wanna to thank you
