Without a kiss or a hug, like contaminated blood,
Transfused from a junkie
With the hair of Jones, I reconstruct the bones

Needles injected 33 RPM of anestic for ? to require cosmetic

Take it to your face like a skin graph

You want (phat) fat lips nurse get to college
And ten tons of stomach pumps from all the cum you and Richard Gere be

Saafir:

I, never, wash my hands

The only rubber gloves I wear is on my dick

But I'll split you quick

Like Jackie Chan, the way I switch my wristhand

I make ya sick, but I'm a doctor, don't trip

Hopefully, in surgury, I won't slip

on a tile that file and twist ya lips

Like Collin Powell

Descriptions I'm overwrite

For the ones thats over bitin' on dental records

bitin', to God, send your blessings

I'll put your mask on, fast like Romidon minks

and bitches, I have, ? half blind in the paper, they named me

A Large Professor, a Mad Scientist, with a long line of clients

BITCH! GET OUT OF MY OFFICE

You don't have an appointment or an application

For me to attack your face in my practice

Never lackin' when I'm insurting these plastic patches

Seems like you need plastic surgury
