Forget About Me

jill knight

Forget about me baby, I know it is kinda hard
It's been so long, and now we're so far apart
Yes I really miss you, and you know you miss me too
And every now and then, you know I'm thinkin of you
Yes we loved in the past, now we gotta leave it behind
And I'm just expressin my feelins through these rhymes
And love, isn't somethin that we can control
We broked up for a reason, now it's time to let go

Vocals (Lil Bit)

You said it wasn't
Gonna be like it was before
Then it happened again
Pushing me back out the door
Thought it would be
For real this time
Love made me forget
About the signs
So now what do I do
Now, that i know
That we're through

Bridge (Lil Bit)

Wish that I could move on
Can't let go it's too strong
Just like that
And then you're gone
Is this how you wanted it to be
Everything you had to say
Sent the tears right down my face
Now i'm trying to escape the misery

Hook (Lil Bit & Dex)

Why don't you love me
The way I love you
It feels so crazy
Cause i don't know

What i did to you
If you're gonna hurt me
Then do it quickly
'cause i'm tired of crying
If you don't wanna stick around
Then baby forget about me

Vocals (Lil Bit)

Too late, sorry
I didn't even had the chance
You said you were happy
Baby I don't understand
Gave you everything
You asked for
And was ready to give you
A lot more
I would've given you
The world right in the palm
Of your hand

Bridge (Lil Bit)

Wish that I could move on
Can't let go it's too strong
Just like that
And then you're gone,
Was this how you wanted it to be
Everything you had to say
Sent the tears right down my face
Now I'm trying to escape the misery

Hook (Lil Bit & Dex)

Why don't you love me
The way I love you
It feels so crazy
Cause i don't know
What i did to you
If you're gonna hurt me
Then do it quickly
'cause i'm tired of crying
If you don't wanna stick around
Then baby forget about me

Vocals (Lil Bit)

Boyyyy my heart was true
And that you can't deny
Don't be a fool
And walk away from all the lies
It's up to you
Cause heaven knows I've tried
Tell me you're still in loveee

Verse 2 (Dex)

We had a lot of good times, we had a lot of bads
We gotta walk our seperate ways, that is a fact
And now the word love, is somethin we can't define
So just forget about me baby, everythin will be fine

Hook (Lil Bit & Dex)

Why don't you love me
The way I love you
It feels so crazy
Cause i don't know
What i did to you
If you're gonna hurt me
Then do it quickly
'cause i'm tired of crying
If you don't wanna stick around
Then baby forget about me
