

# Sunny Mystery

[a-ha](#)

You can run through every forest  
You can sail in the seven seas  
You can climb the highest mountain  
To try and dissolve these memoriesIn case you never knew it  
You can't undo itYou can jump off the edge of the world  
    Hide out in some monastery  
    Lose your mind in meditation  
And never put your mind at easeYou think you're running to it  
    But you are wading through it  
A sunny mysteryLife is the dream that you wake up to  
    Dreams are the life from which you wake  
    Everybody makes the extra effort  
Never knowing what to doBut you know the answer  
    Yeah, you know the score  
It feels just like beforeIt's a sunny mystery  
    That's how it's got to be  
    Because no one knows for sure  
    The outcome of this  
    Sunny mystery
