

# Hollow

## Stutterfly

No, don't drag me down! All this sickness, hard to swallow.  
Eats my insides, until I'm hollow.  
Indecision, fornication.  
Contemplation, to damnation. This world is a breeding ground.  
Take a look at the bleeding ground.  
Adoration, temptation.  
Contemplation, to frustration.  
You'll fall apart. don't drag me down.  
You rule this world, with a synthetic crown. Kill each other for no reason.  
To go against it, this is treason.  
Action reaction. action reaction! All this sickness, forced to swallow.  
Fills me inside, I must follow.  
Is this is what you want to see?  
This is going to piss me off, I will not agree. You'll fall apart. don't drag me down.  
You rule this world, with a synthetic crown.  
Go  
Is this what you want to see?  
This is going to piss me off, I will not agree!
