

# D-Rider (1996 Remastered Version)

## Hawkwind

We're children playing in the sun  
A sense of freedom on the run  
We never knew what time it was  
We just knew how sublime it wasOur course determined by our stars  
My momma knows just where we are  
The earth was forming from below  
A dragon showed which way to goSpacing out, we're spacing in  
Phasing out, we're phasing in  
Turning up by burning out  
Lifting off and gazingOur luck, it changes with the tide  
Our constellations changing side  
Macro mirror image fades  
Our over-conscious color shadesWe're astral-planing, floating free  
On our continuum frequency  
A ring was formed out of the stone  
Metamorphose, tetra formSpacing out, we're spacing in  
Phasing out, by phasing in  
Turning up by burning out  
Lifting off and gazingOur luck, it changes with the tide  
Our constellations changing side  
This macro mirror image fades  
Our over-conscious color shadesWe're astral-planing, floating free  
On our continuum frequency  
A ring was formed out of the stone  
Metamorphose, tetra formSpacing out, by spacing in  
Phasing out, by phasing in  
Turning up by burning out  
Lifting off and gazing
