

# This Lullaby

## Queens of the Stone Age

Where oh where have you been my love?  
Where oh where can you be?  
It's been so long since the moon has gone  
And oh what a wreck you've made me Are you lost over the oceans?  
Are you there up on the sky?  
Until the return of my love this lullaby My hope is on the horizon  
Every face, your eyes I can see  
I plead and pray through each night and day  
Our embrace is only a dream And sure as days come from moments  
Each hour becomes a life's time  
When she'd left, I'd only begun this lullaby
