Built To Last

Rise Against

Invest time, invest life
Invest it all, reinvent yourself
Before you know it
Your essence is renewed with something freshYour will, your way
Will earn respect in your day
Let the glory sharpened knife
Carve the future of your lifeLet's not praise the past, just a fact
Built to last
Old school or the new
Doesn't mean a thing if your heart's not trueGreedy ones faded fast, we're here
Built to last
For the fun, not a fad
The love and the truth so powerfulWork out the snags of the past
Work out the snags that won't last
Mistakes have finished my brothers
Mistakes will guide all the othersYour will, your way
Might shape a better day
Eradicate the stagnancy
Eradicate it like diseaseAs we've seen around the world
We won't go away
Cause we'll always feel this way
We're here to stayAnd our impact will be felt
We won't go away
If we feel it, we feel it
We're here to stay
Built to last
