No Way to Be In Love

David Hasselhoff

It comes another sunrise
Burning in my eyes
Just kept me up all night again
When the girl gets hot where she just can't stopTakin' me places I've never been
But when her heart's runnin' cold
It's like she don't even know me
That she don't even owe me the timeThis is no way to be in love
No way, this girl is driving me crazy
No way to be in love but I stay
And there ain't nobody makin' meCan't sleep at night, no apetite
Which way is up, which way was right
No way to be in love
This is no way to be in loveWhen I heard you say, "Take the good with the bad"
But I'm not sure I know what that means
And I know that it's wrong but I still go along
When she's takin' it all to extremeWhen I make it up
My mind, that I'm not gonna take it
She whispers I love me again
I'm not givin' inNo way to be in love
No way, this girl is driving me crazy
No way to be in love but I stay
And there ain't nobody makin' meCan't sleep at night, no apetite
Which way is up, which way was right
No way to be in love
This is no way to be in loveNo way to be in love
No way, this girl is driving me crazy
No way to be in love but I stay
And there ain't nobody makin' meCan't sleep at night, no apetite
Which way is up, which way was right
No way to be in love
This is no way to be in loveNo way to be in love
This is no way to be in love
