

Blackout

The Whip

Blackout, blackout
We're headed for the blackout
(Blackout)

It's better when we can't see
(Can't see)
I can see better when my eyes can rest
I push it off my mind

Blackout, blackout
I'll see you in the blackout
(Blackout)

There's a place where things are down the line
So simple we can shut it off
We can break it down

So turn the lights down
We're shooting in the dark
So turn the lights down
We're shooting in the dark

Lights down in the dark
Lights down in the dark
Lights down in the dark

I've got to blackout that pressure
(Pressure)
I've got to blackout that pressure
I've got to blackout that pressure
(Pressure, pressure, pressure)

Blackout, blackout
We're headed for the blackout
(Blackout)

We don't even need to make sound
(Make sound)
I feel it more when we cool it down

With your feet on the ground

Blackout, blackout
I'll see you in the blackout
(Blackout)

5 minutes in my head space
(Head space)
Get clearer from my dazzled state
I can communicate

So turn the lights down
We're shooting in the dark
So turn the lights down
We're shooting in the dark

Lights down in the dark
Lights down in the dark
Lights down in the dark

I've got to blackout that pressure
(Pressure)
I've got to blackout that pressure
I've got to blackout that pressure
(Pressure, pressure, pressure)

Lights go down
Head goes up
And I feel nothing

I've got to blackout that pressure
(Pressure, pressure, pressure)
