Stomp

Michael Peterson

Every Friday night
You will find me here
Watchin' people dancin' in a line
While I'm talking to this long neck beerThrow me out there on the floor
I'll show 'em all a thing or two
Both my feet are left, don't know the fancy steps
But here's a dance that anyone can doKick off your workin' boots
Kick on that big back beat
Don't need to do much more
Just let the music move your feet
In time to the rhythm rock steady
Everybody's getting ready to romp
Ain't nothing' to it
Now all you gotta do is just stompDo it loose or do it tight, do it if it takes all night
Just put both feet on the ground
Pick 'em up and slam 'em down
Even if you do it wrong you're doin' it rightKick off your workin' boots
Kick on that big back beat
Don't need to do much more
Just let the music move your feet
In time to the rhythm rock steady
Everybody's getting ready to romp
Ain't nothing' to it
Now all you gotta do is just stompKick off your workin' boots
Kick on that big back beat
Don't need to do much more
Just let the music move your feet
In time to the rhythm rock steady
Everybody's getting ready to romp
Ain't nothing" to it
Now all you gotta do is just stompKick off your workin' boots
Kick on that big back beat
Don't need to do much more
Just let the music move your feet
In time to the rhythm rock steady
Everybody's getting ready to romp
Oh ain't nothing' to it
Now all you gotta do is just stompYeah ain't nothin' to it
Now all you gotta do is just stomp
