

Goodbye

Steve Earle

I remember holding on to you
All them long and lonely nights I put you through
Somewhere in there I'm sure I made you cry
But I can't remember if we said goodbye But I recall all of them nights down in Mexico
One place I may never go in my life again
Was I just off somewhere just too high
But I can't remember if we said goodbye I only miss you here every now and then
Like the soft breeze blowing up from the Caribbean
Most Novembers, I break down and cry
But I can't remember if we said goodbye But I recall all of them nights down in Mexico
That's one place I may never go in my life again
Was I off somewhere may be just too high
But I can't remember if we said goodbye
But I can't remember if we said goodbye, goodbye, goodbye
