I Walk Alone

Los Lobos

I'll walk alone if I can't walk with you
I'll walk alone if I can't walk with you
I don't want nobody else, nobody else will doLife is too precious to live alone
Life is too precious to live alone
A house without love is not a homeI close my eyes and hold you tight
I close my eyes and hold you tight
It's a dream I have about every nightI'll walk alone if I can't walk with you
I'll walk alone if I can't walk with you
I don't want nobody else, nobody else will do
