Ah, to the break y'all (Break y'all, yeah) Ah, to the break y'all (Break y'all, made it) To the break y'all (Break y'all, nah) To the break y'all (Break y'all break, break)

The CB's, the CB's, they're here I'm checkin' my mirror from the rear Locks are closer, than they appear The time is near for you to drop your beer And get your nuts again but ain't no haps (UH-UH)

Your dick isn't there

You're thinkin' that, "Oops, I made a mistake" You say, "Fuck Nell Carter, c'mon Jimmy, give me a break" You made a mistake on the first take Tryin' to break a leg for take two You should aate your wheaties And Petey mighta made a breakthrough

You say to hope that things might bloom, so you assume position

Wishin' he would listen, so you start to kissin'
It's alive and up goes, and up goes you're adrenaline
You aimed, you fired, there you go, limp figures
So you take [unverified] and then play the role of friend and talk
Try to tell her it's her fault, when Jack your bean wouldn't Stalk
Baby, Bubba youse a goner, ah, youse a goner
It's fucker up, when your dick is playin' tricks on ya
So you pop fizz, what a relief, beef stroke it up
My man, got your thing, in your hand, say, "I, I think I can"
Damn this never happened before, yeah, sure that's what they all sa

Damn this never happened before, yeah, sure that's what they all say
Uh, oh you better get Maaco kid, 'cause old girl is saucy
What was sweet to eat, has now dried up and rotted

It's a pile of pew, pick up your glove and say, "Yo I got it!"

Hopin' you won't drop you thought you had it made like [unverified]

What more could go wrong you got the right one, baby

Uh, huh, let you tell it
Everybody and their momma knows
That you came quick, quicker than a pizza,

From Domino's

To the break y'all

(Break y'all, yeah)

The 1/9, the 1/9, the CB's, the break

The 1/9, the 1/9, the CB's, the break

The 1/9, the CB's, the break

Break it up, break it up, break down

Walkin' up and then down the strip

Lookin' for some hip so I can skip

I spotted this honey dip, and her friend tried to sell me a script That they were in a rush to catch the bus, but that was the old Gus So I'm gettin' a bus, as I thrill at the disgust

Since old girl was with this, I told her friend to kiss this

And listen physical fitness use your brain and mind your business

Dippin' from a distance, in an instance I got the digits

And blew a kiss to her

(That old stank hoe)

Was mad I didn't speak to her I hooked up with the one that looked nice

Took her mind, like an ice

Til her friends gave her advice to think, twice

Before with me she slept, my rep was kinda ill
They told her to keep that booty still
I been through more hoes than the pill
Still I overcame 'cause I got game like a athlete
(Uhh)

In less than a half week, she was with it to do the nasty (Break)

The drawers dropped, the top off, and the boots was getting' knocked I heard the door unlock, it was her pop he was a cop So I stopped dropped and rolled, so I wouldn't inhale a shell Broke like a fingernail, on my trail was the smell of tail Bailed back around the flat, to wash off the smell of cat Like a belt, everything was strapped 'Til my homey asked, "Wassup wit dat?"

The dat was like dis G, I told him I got busy This was the spy who dissed me 'cause he told it like a sissy That was foul, I went to him lost in the mind now it's a dead end The little wreck on that they locked the door and I can't get in No more, no more, no more and now I know and now I know Don't mess around with CB's Good buddie, ten fo'
