Holier Than Thou

Rita Hosking

There's a lot of people in this land that are tryin to tell me who I am
Neighbors, papers, and tv screens

Now I'm gonna tell you something new, now I'm asking mister who are you?
What are the issues underneath?of your

Holier than thou, smooth talkin surefire honey
Gotta get your head down to the ground?and keep your

Holier than thou, fine talkin right on the money
We got ways to humble you down

Take's some thinkin to say what you should, not saying just what makes you feel good
People gotta give the respect they need

If you're gonna see in black and white, better settle in for one long fight
Ain't no way that we'll agree?with your

Holier than thou, smooth talkin surefire honey
Gotta put your head down to the ground?and keep your

Holier than thou, fine talkin right on the money
We got ways to humble you down

There's a little child in this land cryin won't you tell me who I am?
To neighbors, papers, and tv screens
Let's guide him to be kind and true, sure as hell shouldn't send him to you
Not with the lessons that you teach?with your

Holier than thou, smooth talkin surefire honey
Gotta put your head down to the ground?keep your

Holier than thou, fine talkin right on the money
We got ways to humble you down
To humble you down
