Middle Management

Bishop Allen

Alright!
I'm over by the water cooler
Listen to the chatter
While I'm working to get fired but it doesn't seem to matter
When the week is nearly through
But I find something to do
Cause the end is coming soon
Yeah the end is comingAlright!
Alright!
Well alright!
Alright!Put the days together and they start to do some damage
If the mean is in the middle then I know that I will manage
When the week is nearly through
I will find something to do
Cause the end is coming soon
Yeah the end is comingThe telephone is ringing right off the hook
Must be one of those days where I got the shakes that just can't shook
Pick up the phone and say we're alright
Alright!
Alright!
Alrighty[Repeat: x4]
And I don't wanna have to think about it
(Why should you think about it)The telephone is ringing right off the hook must be one of those days where I got the shakes
That just can't shookAlright! [Repeat: x6]
Alrighty
Well alright!
