The twelfth dimension
The ultimate blast
Third from the sun
A thing of the pastNineteenth degree
All god beware
E=mc2Goodbye world
Blue planet earth
Our time is up
For what it's worthGoing down in flames
We cheer the puppeteerFull blown chaos
Pandemonium
Up Uranus
Adios amigosLast call on planet fuckedYou trade on the bones of lost memories
Ever spiraling down without hope
Without ceaseRampage turmoil
The iceberg's tip
The rats have left the stinking shipA bleating throng
The final rout
The maw of Molocj will sort 'em outFeed the Moloch
Feed the MolochA broken record
A throw-away toy
Last exit now or self-destroy
