

# Sleepwalkers Dream (Remastered)

[Delain](#)

Close your eyes  
For the night is falling  
Fear no dark for it's warm and safe  
And looks familiar as it comes approaching  
Come with me and I will take you On a world beyond your sleep  
Beyond what's real  
In safety, a hidden sphere  
Away from our daily reality  
Truth lies out there, the truth lies out there. As the innocent lay their heads down  
As the night chants its luring call  
Cross the borders of sense and foresight  
Come with me and I will take you  
You don't have to be afraid A tear is only water  
A sigh is only air  
Whenever you feel haunted  
The truth lies out there, the truth lies out there.
