Make It Better

Pendleton

Take your time and you'll find
What you're looking for and
Search your heart and your mind
You will soon discoverYou're gonna make it better
You're gonna make it better, yeahRelease yourself, take a breath
Listen to what's inside you
You've found a way to turn another day
Like a page in historyYou're gonna make it better
You're gonna make it better
All you need to know is where you wanna go
Do you really care if anybody knows you're there?
You are you, yeahYeah, we're gonna make it better
You're gonna make it better
All you need to know is where you wanna go
And do you really care if anybody knows you're there?
You are you, ohWe're gonna make it better, better
We're gonna make it better, better
We're gonna make it better, better
We're gonna make it better, betterWe're gonna make it better, better
Yeah, we're gonna make it better, better
Oh, we're gonna make it better, better
Oh, we're gonna make it better, yeah, yeahGonna make it better, better
Gonna, gonna, gonna make it better, yeah, yeah
