

For Your Precious Love

Otis Redding

For your precious love means more to me
Than any love could ever be
For when I wanted you I was so lonely and so blue
For that's what love will do Darling, oh, they keep saying that our love wont grow now
but honey i want to tell them
and i just want to show them
how in the world do they know
(if for long as long is long)
for as long as you be in love with me now
i know our love will grow wider, and so deeper than any any ever sea
ohhhh
all the hings that i wanted in the world, in this whole wide world
Is wanting you to be my girl(Wanting you) Wanting you,
(I'm lonely and blue) Whoa, lonely
That's what love will do For your precious love means more to me
Than any love could ever be
For when I, I wanted you I was so lonely and so blue
That's what love will do
