Ruby With The Eyes That Sparkle

Stuart Duncan & Dirk Powell

Verse 1You can keep your starry night
You can keep your moon glowFor I can see two midnight suns
So bright theyll make a tear flowNo summer night can warm your heart
Without her Im a shadowMy southern lows are resting high
With those eyes that I knowChorusIve seen some sunsets
And Ive seen some rainbowsIve seen some sunrises
Ruby with the eyes that sparkleIve seen some sunsets
And Ive seen some rainbowsIve seen some sunrises
Ruby with the eyes that sparkleVerse 2One glance sends me soaring high
And further than sparrowShe burns right through my Dixie bones
Right through the very marrowShe sings a song with every glance
And I am just a hoboIll make my home within her gaze
And we will watch our love growRepeat ChorusRepeat Verse 1Repeat ChorusCopyright eden productions
