

Pretty Little Girl

Bobby Brown

You know a man likes a good time
He likes to wine and then dine
A beautiful woman
And love her through the night
And if the lovin' feels right
He likes to do her two times
Pleasing that woman
Until she's satisfied
But when all the love is done
Who wants love that's on the run?
One good time, but there's so much more
How 'bout conversation, some communication
Someone who loves you and stimulates your mind, baby
A pretty little girl just ain't gonna get it
I need a woman
I need the kinda girl who keeps on
Usin' her mind all of the time, baby
A pretty little girl just ain't gonna get it
I need a good strong woman, who'll keep love comin'
All of the time, all of her life
You know a man likes to have fun
He likes to get into some tender young roni's
As pretty as they come
He likes to love all night long
And makes 'em feel they got it goin' on
Sometimes, it's lonely, 'cause there's know one at home
But when all the peaks are done
Know one still knows anyone
We've had fun, but I need so much more
How 'bout conversation, some communication
Someone who knows you and stimulates your mind
A pretty little girl just ain't gonna get it
I need a woman
I need the kinda girl who keeps on
Usin' her mind all of the time, baby
A pretty little girl just ain't gonna get it
I need a good strong woman, who'll keep love comin'
All of the time, all of her life

I'm not ashamed to say, that I've been that kinda guy
Didn't want no lady, I just wanted a good time
But now, I think I'm ready for love
I need a woman that'll give it up
Someone to love me
And someone to be right by my side, baby
A pretty little girl just ain't gonna get it
I need a woman
I need the kinda girl who keeps on
Usin' her mind all of the time, baby
A pretty little girl just ain't gonna get it
I need a good strong woman, who'll keep love comin'
All of the time, all of her life
Can you give me the lovin'? All I need
And if you give me the lovin', I'll give you all of me
'Cause I need a woman, to care for me
To love me, to squeeze me
And someone to be right by my side, baby
A pretty little girl just ain't gonna get it
I need a woman
I need the kinda girl who keeps on
Usin' her mind all of the time, baby
A pretty little girl just ain't gonna get it
I need a good strong woman, who'll keep love comin'
All of the time, all of her life
A pretty little girl just ain't gonna get it
I need a woman
I need the kinda girl who keeps on
Usin' her mind all of the time, baby
A pretty little girl just ain't gonna get it
I need a good strong woman, who'll keep love comin'
All of the time
