

# That's How I Don't Love You

Jamey Johnson

I used to wake up early  
Just so I could watch you as you sleep  
That's how I loved you Forever was a promise  
That wasn't very hard for me to keep  
That's how I loved you For habits and the carnal sin  
Has left me in a crooked state of mind  
That's how I loved you Now I just pour the poison  
And then act like it's my new best friend  
At night and I cry  
And that's how I don't love you anymore There ain't no sense in yellin'  
Ain't no use in dwellin' on the past  
That's how I loved you I'm sittin' here and missin' you  
A waste of time and life goes by too fast  
That's how I loved you For habits and the carnal sin  
Has left me in a crooked state of mind  
That's how I loved you Now I just pour the poison  
And then act like it's my new best friend  
At night and I cry  
And that's how I don't love you I used to wake up early  
Just so I could watch you as you sleep  
That's how I loved you
