# Just One More

## Johnny Cash

Put the bottle on the table let it stay there till I'm unable
To see your face in every place that I go
I've been sitting here too long just remembering that you are gone
One more drink of wine and if you're still on my mind
One drink just one more and then anotherI'll keep drinking it won't matter I'll just remember that I once had
I don't know why I sat and cry every day
I've been trying to forget but I haven't stopped it yet
One more drink of wine and if you're still on my mind
One drink just one more and then another
Put the bottle on the table let it stay there till I'm unable
To see your face in every place that I go
I've been sitting here too long just remembering that you are gone
One more drink of wine and if you're still on my mind
One drink just one more and then another
