Parachute

Guster

There we stand about to fly
Peeking down over land
Parachute behind
And what was that moment for which we live?
Without a parachute about to die
Find myself convincing
Blindly falling faster
How easy
Know the place I'm leaving
And the rest is just gone
Oh the adoration
But how much strength does it take
For exploration
For split decision?
Or are you stronger to remain?
Find myself convincing
Blindly falling faster
How easy
Know the place I'm leaving
And the rest is just gone
It crept up on me
Ignored all my pleas
Begging to leave
No justice to maim me
Fell out of the sky
Cease it to be
Without a reply
Gravity fails me
And when I awoke
I knew what was real
Hope to convince you
Lies, they all torture me
Opened the door
Knew what was me
I finally realized
Parachute over me
Find myself convincing
Blindly falling faster
How easy

Know the place I'm leaving
And the rest is just gone
