Here Today, Gone Tomorrow

Keel

A midnight flight on a rainy night
I've got a hundred more miles to go
I spent a long time on the telephone line
Cause I had to let you knowI've been around the world and now
I'm coming home
It's something I've got to do
Tomorrow at ten I'll have to leave again
But tonight I belong to youHere today, gone tomorrow
Just keep my love in your heart
And I'll be here to stayWell, we both know I've got a job to do
And I do it well, yeah
But to fight my way back to you
I'd go through heaven and hellI've got to hit the road and do another show
As soon as the night is through
Though I'm here today, gone tomorrow
My heart remains with youI'm here today, and gone tomorrow
Even though we're apart
I'm never too far awayOh, I'm here today, and gone tomorrow
Just keep my love in your heart
And I'll be here to stay
And I'm on my wayI'm here today, and gone tomorrow
I'm here today, and gone tomorrow
I'm here today, and gone tomorrow
Even though we're apart
I'm never too far away
I'm never too far away
I'm here today,
Just keep my love in your heart
And gone tomorrow
'cos I'm gone tomorrow
And here's today
