

# Sylvia

## Creeper Lagoon

Sylvia, what will we do?  
Here we are, we're waiting for you Who will light the way from where we stand  
The darkness plays a golden hand  
You fed us all with rotten pears  
But I don't care Sylvia, you're such a gas  
Your time has come and now must pass Who will light the way from where we stand  
The darkness plays a golden hand  
You fed us all with rotten pears  
But I don't care Sylvia, what will you do?
