

Say What You Mean

Diamond District

(Verse: XO)

XO, nigga

Free the heartway, can do this all day
If not the big one, you the joker with the small face
Fuckin' with three kings and archkings, Moses flow
Spit like I've seen God's face
And for y'all sake, gave em a head start, wait
We yappin' whoever rappin', the fuel is hunger
And passing the moment, appreciate it for the days that we ain't have it
Light green, spark ?, color of cabbage
Gave you the first testament. One that is comin' after?
The resurrection and the rapture for you bastards
When is this supposed to be happening, so you ask us
On to ? and reap rappers who think passed us
? Mob City, we don't know those guys
Photowise? We be no logo fly
How weak this symbol(?!december?!), when we started solo
I don't know why they wrote those lies
Two faces of the story, y'all
Analyze both sides, two faces this game and it got no eyes
Sell a soul for a bread? That's a lot for a smile
But you fuckin' with eternity
You was hot for awhile, but now

(Hook x2)

Got XO (come on!)

And yU (come on!)

Oddisee, we are the Diamond in D

And it go (come on!)

I gotta say what I mean

And then you do what you say

I gotta say what I mean

And then we do it this way

(Verse 2: yU)

I done do it all, influence through this mall
The crew we lost through these songs, they gotta prove me, y'all
Don't try to root me down, cuz I'm cut like Bruce Lee, oh
The fist of fury endurance, you need not worry, no

That you haven't lurked before, worried on whatever that is status
Got em trippin' while ? get yo baggage while you at it
So be out, bounce, that roll, fade out slow (?)
Rock the house without chatter and doubt, we brought dough
So the pockets stay chumpy like a fat girl's cheeks
You want a bite, don't you? Adverse is the light sculpt you
Remember Jordan with the tongue out, ? my poster
A distant dine, the bottom line, all crew, we ball ultra (?)
Magnetic, we attract people that leave that broom and that bat
Fact to ? opposite we blazin' to yo middle acts
You hear the sax, smatch it up with the slax
Slick 6, new Diamond District, need to listen to that

(Hook x2)
Got XO (come on!)
And yU (come on!)
Oddisee, we are the Diamond in D
And it go (come on!)
I gotta say what I mean
And then you do what you say
I gotta say what I mean
And then we do it this way
