

# I Wish It Was You

Trace Adkins

A car goes by and I see your face  
A strangers face in the window  
And I wish it was you  
I'm in a room  
Its a crowded room  
A friend walks up to say hello  
And I wish it was you  
Cause every memory that haunts my mind  
Is just another reason why(I wish it was you) a phone ring in the middle of the night  
A doorbell in the broad daylight  
A letter in the mail that I come home to  
(I wish it was you) when I see two people on the street  
Touchin' like they don't care who sees  
Laughin' the way we used to do  
I wish it was you'll meet someone who could be the one  
But soemthin' always happens  
Before the night is through  
There's that certain look and that certain smile  
There's that old familiar pattern  
And I wish it was you  
Tellin' me that you'll be back someday  
And I don't have to feel this way(I wish it was you) a phone ring in the middle of the night  
A doorbell in the broad daylight  
A letter in the mail that I come home to  
(I wish it was you) when I see two people on the street  
Touchin' like they don't care who sees  
Laughin' the way we used to do  
I wish it was me and I wish it was you
