When Did You Know

Jamie O'Neal

Did you know when you were holdin' me
By that fire in Jackson Hole, that you were gonna let me go
And did you know when we were flyin' home, I was fallin' hard for you
I thought you were the one, were you only havin' fun?When did you know, we weren't lookin' at forever?
How could we be so close and still not be together
Every dream I believed has now come down to just one question
When did you know it wasn't love, when did you know it wasn't me?How can you make a woman feel that way, while you never feel a thing
Why did you do that to me and how can you keep your heart set on freeze
While you set my soul on fire?
I don't understand it yet, I'm still tryin' to catch my breathWhen did you know, we weren't lookin' at forever
How could we be so close and still not be together
Every dream I believed has now come down to just one question
When did you know it wasn't love, when did you know it wasn't me?Every dream I believed has now come down to just one question
When did you know it wasn't love?
When did you know it wasn't me?
Baby, when did you know?
