

# My Song 5 (feat. A\$AP Ferg)

## HAIM

I found it hard, tried to reserve  
I'll get it right when I am heard  
(Hot for me)  
The man's his own  
(Hot for me)  
To her he'll go  
(Hot for me)  
But I'll be fine  
(Hot for me)  
'Cause I know He's in her heart, on the floor thinkin' than I'll never know  
I'll be up going through crazy shit I did for you  
In my mind, in my head seeing all the words unsaid  
Honey honey I am never coming home again I've been lied to  
So what's the truth?  
Now I'm not gonna hide it all, keep it in all from you  
I've been dying to know what you tried  
You've been lying so  
Honey I'm not your honey pie He's in her heart, on the floor thinking that I'll never know  
I'll be up going through crazy shit I did for you  
In my mind, in my head seeing all the words unsaid  
Honey honey I am never coming home again If you want to see me baby please  
Been holding on for eternity  
Say you only want me  
Missing you never led to much of anything If you wanna know, if you wanna show  
How it means, what it seems, seems to be,  
Held by a thread, tried to forget  
But I'll never let it go  
Honey I'm not your honey pie Tried to lie, dying to hear all lies  
Trying to  
Tried to lie, dying to hear all lies  
Trying He's in her heart, on the floor thinkin' than I'll never know  
I'll be up going through crazy shit I did for you  
In my mind, in my head seeing all the words unsaid  
Honey honey I am never coming home again I've been lied to  
So what's the truth?  
Now I'm not gonna hide it all, keep it in all from you  
I've been dying to know what you tried  
You've been lying so  
Honey I'm not your honey pie
